

# Jefferson Refinery LLC Acquires SRM Engineers and Constructors

**January 8, 2010:** For immediate release

**Houston, Texas** – Jefferson Refinery announced today that it has acquired SRM Engineers and Constructors (SRM) a firm specializing in petroleum engineering and project management. This acquisition expands Jefferson Refinery’s integrated service capabilities with experienced in-house engineers, construction supervisor, and refinery and terminal operators with immediate benefits to Jefferson Refinery’s Operational, Engineering and Marketing Divisions. The terms of the transaction were not disclosed.

“This is a natural acquisition for Jefferson Refinery,” said Al Salazar, CEO of Jefferson Refinery. “SRM and Jefferson Refinery have worked closely together and SRM has consistently delivered an exceptional level of service. This new level of integration broadens our collective capabilities and we are now even better positioned to serve national and international interests. We welcome the SRM team to Jefferson Refinery.”

“This acquisition is a win-win situation for both parties,” said Randy Miller, President of SRM. “For Jefferson Refinery, it consolidates all engineering disciplines under the same roof and for SRM, it provides access to new clients and opportunities in the energy sector.”

## **About SRM ([www.SRMco.com](http://www.SRMco.com))**

SRM has designed and operated refineries all over the world. These refineries range from small crude/asphaltic topping units to full range world class plants. SRM’s operational background is extensive, with numerous refinery managers on its staff having operated refineries that exceed 400,000 bbls/day.

## **About Jefferson Refinery ([www.jeffersonrefinery.com](http://www.jeffersonrefinery.com))**

Jefferson Refinery LLC is a Texas Limited Liability Company formed in 2007 to re-develop an idle crude oil refinery near Winnie, Texas into the hub of a multi-faceted energy business.
